FINISHING & DEBURRING | PARTS CLEANING | WASTE WATER TREATMENT | SHOT BLASTING | ABRASIVES & CHEMISTRY

---

December 10, 2018

To our valued Customers:

As 2019 quickly approaches, we find pricing pressures have increased our costs across the board. Worldwide pressures on wages, materials, healthcare and transport have greatly impacted our manufacturing partners as well. Due to receipt of significant pricing increases from these same manufacturing partners, we find that we must pass along these increases on Mass Finishing media and compounds.

All Ceramic media pricing will increase by 5%

All Plastic media pricing will increase by 3%

Finishing chemistry / compounds:

Types FC 2xx's and FC 3xx's will increase by 25%

All other finishing chemistry types including ZF types will increase by 5%

Flocculants will increase by 5%

The above price structure changes will begin with shipments January 14<sup>th</sup>.

If you are unsure whether the items we supply to your company will be affected, please contact your sales person or our office for pricing confirmation.

As always, we appreciate the opportunity to be of service.

Sincerely,

Dan O'Connor
